## PLEASE SHARE YOUR COMMENTS BELOW:

The Scoping for Millenium bulk terminals should be expedited as quickly as possible. Getting permits is taking too long and enviromental radicals who hamstring the process are uninformed and influenced by organizations who tell lies to inflame and arouse emotion.

Oregon state law mandates a higher priority for economic development by deepwater ports ORS 777.065

The United States of America relies on our abundant natural resources for our economy. We will become a 3rd World Country if enviro-radicals are allowed to stop economic development

(additional space is provided on the back)
