## PLEASE SHARE YOUR COMMENTS BELOW:

It does not make sense, as a long-term investment, to spend money on the coal industry. It's glory days are over. Coal businesses are failing - it makes news often. Our electricity generation in this country has moved on to natural gas. China is well aware that coal burning is a major factor in their serious air pollution. It seems really STUPID to me to build this coal terminal. It will be a money loser and have a very short life if built.
