PLEASE SHARE YOUR COMMENTS BELOW:

Coal is a very short term fix for the economy in this area.

Coal is not going to be a commodity needed in the next few decades. Why bring such a dirty, greenhouse^{gas} causing commodity at this time? Why not gear up for the increase^{needed} in solar panel manufacturing & shipment. I watched the wind turbines arrive^{by ship from overseas} and travel by truck to other parts of the NW. Why were we not ahead of the curve on manufacturing of wind turbines here in Longview?

(additional space is provided on the back)

(comment continued)

How about CLT (cross laminated timber) manufacturing here & bulk shipping from our port to points over seas. Why not be ahead of the curve on CLT? It seemed to ~~be~~ a perfect fit for the area.

I really find it very hard to believe that all the people running for County Commissioners are so very short-sighted that they feel coal is a good fit for Cowditz County. It is not a long-term solution to our jobs & economic ills.

* Please consider bringing solar panel, wind turbine, & CLT manufacturing & allow Cowditz County to be a leader in clean energy in the ^{state} country. Not Coal!

Thank you
