Have someone visit a town where coal trains run 24/7 - Plattsmouth, Nebraska! Trains make a lot of noise throughout the town not just a few feet from tracks. Your agency is wrong about noise levels.

Have someone visit
Molokai, Alabama where
a "contained" export facility
has been spewing coal
dust through out that
city. Coal dust can not
be contained. Your
agency is wrong to let
the export terminal
be built in the N.West!
