PLEASE SHARE YOUR COMMENTS BELOW:

The coal train are a hazard to our communities and therefore we do not need an increase in the # of trains traveling through the Columbia Gorge + our communities. The coal dust is a hazard to human, plants, animals, + fish in the river. An accident causing pollution of the Columbia River would be awful. With such an increase in # of trains there will be an accident.

(comment continued)

(additional space is provided on the back)

The greenhouse gas emissions from the project
is not healthy for the environment + will impact
negatively global climate change.

We need healthy air + clean jobs.

Cathy Dauf
Washungal, WA

NO COAL EXPORTS

NO EXPANSION AT LONGVIEW
