To Whom It May Concern:

I am writing to express my opposition to the proposed Millennium coal terminal in Longview, WA.

Instead of facilitating the use of coal and other fossil fuels, we need to reduce NOW their consumption and focus on the development of renewable energy sources. Otherwise, as science is telling us, the damage to our environment from fossil fuels will be irreversible, ultimately destroying most, if not all, forms of life; a legacy that no one should want to leave.

Your serious consideration of this matter will be appreciated.

Sincerely yours,
