Seattle, WA 98104**

I am commenting on the Millennium Bulk Terminals-Longview (MBTL) because the coal trains from Powder River Basin will come through Montana. The increase in train traffic endangers all of us from derailments (nationally trains carrying dangerous materials derail every two weeks) to rail crossings that hold up emergency vehicles. I have a lung condition, COPD, and the increased coal dust (present even after coal is sprayed) will certainly affect me as well as many others. Please deny permission for MBTL to be enlarged.
