Millennium Bulk Terminals—Longview SEPA EIS
c/o ICF International
710 Second Avenue, Suite 550
Seattle, WA 98104

The impact of coal trains blocking vehicular traffic on SR 433 and major intersections for extended periods of time should make the project entirely untenable until infrastructure improvements are actually in place. The vehicular travel delays that 16 train crossing per day would place on the community safety and general commerce are totally unacceptable.

I urge a "no action" alternative for the Millennium Bulk Terminals facility in Longview.

Respectfully,

A handwritten signature in black ink, appearing to read "Harold Cockrell". The signature is written in a cursive, somewhat stylized font.
