PLEASE SHARE YOUR COMMENTS BELOW:

I've lived in coal & oil environments most of my life and am convinced from experience that these resources must be used as cleanly as possible i.e. pay the expenses to keep them from polluting the environment and harming our health. For example, have everyone using them use the proper equipment e.g. filters and scrubbers. I want coal & oil from the US, to be used here, not sent overseas where quality control is less & our raw materials may be used against us. We need to continue developing and using cleaner things like solar & wind, wave, geothermal, etc. We've seen people exploited as well as our land for a few people's profits while others suffer. We must do better!

(additional space is provided on the back)

Longview, WA is in a valley and we do not need more pollution from diesel fumes. We already have enough from the mills. Likewise for rail traffic delaying other traffic; noise is too much already. Our fire departments are already busy enough, as is our hospital, and other emergency services. We don't want more tax increases to enlarge them to serve the coal & oil profiteers. We are already getting better industry into our area without causing more problems.
