I was taught, if I was having trouble making a decision, to make a list of pro & cons. On this project the list for pro has only 1 item: jobs. On the con side the list is long – every item on the list above: noise, air quality, human health, excessive train & traffic, vessel traffic & vehicle traffic, coal dust, greenhouse gas elevation due to burning.

(comment continued) (additional space is provided on the back)

coal, promotion of climate change, negative impact on plants, animals, marine species, fish and fisheries, wetlands, streams, the river, our water and even more —

It seems obvious — protect the people and the planet. Find different jobs for the people of the area.

No Action!!!
