## PLEASE SHARE YOUR COMMENTS BELOW:

I support the no action alternative.

We need an immediate transition to sustainable energy.

We are in a climate emergency. Mining, processing, shipping and burning coal will accelerate global climate change.

We need a just transition to sustainable energy. Just transition means providing new ~~jobs~~ jobs and job

training for people who lose their fossil fuel industry

(comment continued)

(additional space is provided on the back)

jobs during this transition.

We also need to create new jobs and training in solar and wind power.
