| <input type="checkbox"/> Vessel Transportation | <input type="checkbox"/> Marine Species, Fish, or Fisheries | |
| <input type="checkbox"/> Vehicle Transportation | | |

PLEASE SHARE YOUR COMMENTS BELOW:

more thought needs to be given to the climate change scientists who claim that we must keep CO2 particles in air to 350 parts/million - we must keep remaining coal in the ground to prevent temps from rising. Further, local environments will be greatly impacted by the trains coming through & the dust generated from the coal, even with the surfactin to be added along the way.

(additional space is provided on the back)
