| <input type="checkbox"/> Vehicle Transportation | | |

PLEASE SHARE YOUR COMMENTS BELOW:

China is becoming (in fact already is) an advanced nation. It's cities are already grossly polluted. They are the factory of the world (Now) but for how much longer. They already have the technology to skip over the use of fossil fuels. I cannot see them going back to this antiquated method of producing energy. The whole thing is a waste of time money + resources.
