| <input type="checkbox"/> Vessel Transportation | <input type="checkbox"/> Marine Species, Fish, or Fisheries | |
| <input type="checkbox"/> Vehicle Transportation | | |

PLEASE SHARE YOUR COMMENTS BELOW:

Over the last 1 million years the earth's climate has fluctuated between ice ages and warm periods such as ours. Every 100,000 yrs or so we cool down to ice age proportions, then warm up for about 10,000 years. Human activity did not cause this. China will get coal from someone else if not from us. And Vancouver will be happy to send them ours if the U.S. won't. We need jobs in this state, good jobs. There is no good reason not to build the terminal.
