PLEASE SHARE YOUR COMMENTS BELOW: ^{my husband}

My name is Susan Heddings we have lived in the Tenby area since 1991, we hear train whistles all through the day & night. I'm NOT looking forward to more noise from trains. The diesel smell will permeate our homes & trains going through day & night. The ~~tan~~ train cars will leak the dust. It can't be completely contained. My husband already suffers from ~~asthma~~ respiratory problems from dust. Now black dust will be every where. ^(additional space is provided on the back) Shutting our live stock watering trough & hay racks. Please NO Coal

(comment continued)

trains through the Tri-Cities,

The traffic out in Twilly will become congested. The Noise will be unbearable. The whistles are numbing to our sense of peace & quiet. This is our retirement home. You must put yourself beside the tracks & listen for a whole day to see what it's like now & think what it will be like when 10-100 car trains go by. That's about 2 think more than a train an hour. That's unheard of to put a community through. Why do that just to take coal to Japan. I think about the Tri-Cities first and all the states that these trains go through. The impact on our lands will greatly be harmed.

Some of you who want this to go through need to stay awhile somewhere "close to the tracks & see what the 'Noise' does to you!! You won't be able to stand it.

Our crops won't grow well. The dust will be on our roads & lanes, in our cars & shoes. It will be everywhere. Causing great problems to our health!
