NO COAL EXPORT!

Dear Army Corps of Engineers, Washington Department of Ecology, and Cowlitz County officials:

As a person of faith, I strongly oppose the construction of a coal export terminal at Longview, WA and transporting coal on trains and ships throughout the Northwest. This proposal would negatively impact my community by increasing congestion and noise with more coal train traffic, polluting our air and waterways, harming existing businesses, and delaying emergency responders. It would also damage aquatic ecosystems and fishing grounds, increase tanker traffic and the potential for shipping accidents and spills, expand strip-mining in Montana and Wyoming, and escalate climate change.

I support the "no action" alternative for Millennium Bulk Terminals' facility in Longview, WA. I urge your agencies to protect our region and say no to coal exports.

Faith calls us to be good stewards of God's creation. Shipping coal through Washington communities goes against shared values of stewardship, sustainability, and justice. We can do better. Please reject the Millennium coal export project.

Thank you. _____ [signature]
