

I support the "no action" alternative in the Millennium Bulk Terminals Draft Environmental Impact Statement (EIS). Millennium's proposed coal export terminal would harm communities throughout the Northwest, with the most intense impacts felt in Longview, Washington, near the proposed terminal site - while undermining the state's hard work to combat climate change to protect future generations.

The project harms our health and safety, air and water quality, and natural resources. I urge your agencies to protect public health and natural resources.

Reject coal exports.
