## PLEASE SHARE YOUR COMMENTS BELOW:

We need to quickly transition off fossil fuels into clean energy sources and opening another coal facility is not the way to do this. The most important factor is the contribution to climate change. Also, I live in Cully neighborhood in NE Portland and I don't want eight coal trains per day traveling on that track, spewing coal dust & diesel fumes, and shaking my home. We already have too much air & noise pollution in our area from highway and airport and train traffic.
