Cowlitz County SEPA Determination of Significance & Request for Comments on Scope of EIS for Millennium Bulk Terminals Longview LLC Coal Export Terminal

Description of Proposal: Millennium Bulk Terminals Longview LLC (MBTL) proposes to build a terminal for the transfer of coal between rail and ocean-going vessels for export on a portion of an existing industrial site which includes an existing operating dock (Dock 1) in Cowlitz County, Washington ("Coal Export Terminal"). The proposed Coal Export Terminal would be located near Longview, WA, adjacent to the Columbia River on an existing brownfield site zoned for heavy industrial use. The proposed Coal Export Terminal would cover approximately 190 acres of the approximately 536-acre site and would consist of rail unloading, storage, reclaiming and loading ships with coal. The proposed Coal Export Terminal would be capable of receiving, stockpiling, blending, and loading coal by conveyor onto ships for export.

MBTL proposes to develop the Coal Export Terminal in two separate phases. MBTL would construct two docks (Docks 2 and 3), one shiploader and related conveyors, a stockpile area including stockpile pads, a rail car unloading facilities, an operating rail turn around loop, up to eight rail lines, site area ground improvements, associated facilities, stockpiles, and infrastructure and conduct necessary dredging in the first stage (Stage 1). Stage 1 would be capable of a nominal throughput capacity of up to 25 million metric tonnes per year (MMTPA). Stage 2 facilities would consist of one additional shiploader on Dock 3 and associated stockpiles, conveyors and equipment necessary to bring the nominal throughput up to 44 MMTPA. The completed Coal Export Terminal would consist of two new docks, shiploading systems stockpiles and pads, rail car unloading facilities, an operating rail turnaround loop, rail lines to park 8 trains, associated facilities, conveyors, stockpiles and equipment, and necessary dredging. The planned total throughput capacity of the full build out facility would be a nominal 44 MMTPA of coal.

Dredging is required to provide berthing access from the navigation channel and to provide an adequate turning basin in the vicinity of Docks 2 and 3.

Stages 1 and 2 will be permitted under a single US Army Corps of Engineers authorization. Shiploading facilities for Stage 1 and 2 will be permitted under separate shoreline substantial development permits. Stage 2 ship loading facilities are not included in the current shoreline substantial development permit application to Cowlitz County.

Alternatives: Alternatives to the Coal Export Terminal proposal will be determined through the scoping process according to WAC 197-11-440(5)(b). Reasonable alternatives will include actions that could feasibly attain or approximate the proposal's objectives, but at a lower environmental cost or decreased level of environmental degradation. The No Action Alternative will also be evaluated.
