Millennium Bulk Terminal Longview LLC  
Longview Public Scoping Meeting  
Oral Scoping Comments  
U.S. Army Corp of Engineers:1300hrs-1600hrs  
Cowlitz County Regional Conference Center  
1900 7<sup>th</sup> Avenue  
Longview, Washington 98632

To The Board Assembled;

In a description of the duties of the U.S. Army Corp of Engineers. Dam it. Dike it. Drain it.

In this the Corp dredges rivers. What levels would be added of mercury, hydrocarbons and radioactive materials to the Columbia River. And to the fish and other wildlife in the river.

And what exposure threat to humans by absorption and ingestion would occur over the life of a coal facility.

Facilities can close or leave for a number of reasons. Can we?

Your president appoints federal department heads.

Your congress oversees the departments.

Your governor appoints the department heads of your state.

Your legislature oversees those departments.

Your county commission oversees those at the county level.

The city council oversees city departments.

This is our government.

Will they all claim there isn't much they can do?
