

MILLENNIUM Bulk Terminals-Longview
EIS Environmental Impact Statement

PUBLIC SCOPING MEETING COMMENT FORM

Please submit your comments on the Millennium Bulk Terminals – Longview Environmental Impact Statement by November 18, 2013 in order to ensure your comment is included in the scoping summary report. Comments can also be submitted online at <http://www.millenniumbulkeiswa.gov>.

To whom would you like to address your comments?

- All Agencies (NEPA and SEPA)
- US Army Corps of Engineers (NEPA)
- Cowlitz County and the Washington State Department of Ecology (SEPA)

Does your comment relate to one of the following areas?

Human Environment

- Noise
- Air Quality
- Human Health
- Transportation
- Other Human Environment Topic

Natural Environment

- Plants and Animals
- Marine Species, Fish, or Fisheries
- Wetlands or Streams
- Water Quality
- Other Natural Environment Topic

EIS Process

- Alternatives
- EIS Regulatory Process
- Other EIS Process Topic
- Comprehensive Health Impact Statement

PLEASE SHARE YOUR COMMENTS BELOW:

As a public health nurse I am concerned about climate change - flooding, fires, winds with unprecedented force all causing devastation to humans, towns, fish, wildlife, forests. This has long term effects. We need green technology not outdated coal with the worst pollution record.

Coal has heavy metals - what will happen to our river ecology if there is a barge or tanker accident - who will clean it up - no one can take the mercury out of the fish or birds that depend on this treasure - the Columbian River

(additional space is provided on the back)

and forge.

Finally I am concerned about its effect on the people near the terminal & train tracks. The lead, mercury, arsenic in coal, and the dust particles in coal & diesel particulates - They could cause asthma, COPD and chronic neuro diseases - like ADHD, Autism, infant development impairment; ^{finally} cancer, heart failure. Please investigate this. And the emergency response time to hospitals with 30 minutes wait.

With great respect for what you need to do - move our energy needs requirements to green energy jobs.
Maulu
