

MILLENNIUM Bulk Terminals - Longview  
**EIS** Environmental Impact Statement

PUBLIC SCOPING MEETING COMMENT FORM

Please submit your comments on the Millennium Bulk Terminals – Longview Environmental Impact Statement by November 18, 2013 in order to ensure your comment is included in the scoping summary report. Comments can also be submitted online at <http://www.millenniumbulkeiswa.gov>.

To whom would you like to address your comments?

- All Agencies (NEPA and SEPA)
- US Army Corps of Engineers (NEPA)
- Cowlitz County and the Washington State Department of Ecology (SEPA)

Does your comment relate to one of the following areas?

*Far more than just 1!*

Human Environment

- Noise
- Air Quality
- Human Health
- Transportation
- Other Human Environment Topic

Natural Environment

- Plants and Animals
- Marine Species, Fish, or Fisheries
- Wetlands or Streams
- Water Quality
- Other Natural Environment Topic

EIS Process

- Alternatives
- EIS Regulatory Process
- Other EIS Process Topic

PLEASE SHARE YOUR COMMENTS BELOW:

*When evaluating the myriad results of Millennium's L-view proposal, as a proud community struggling to improve our economy and quality of life please consider these issues empathetically (Ask yourself would I endorse this were I a Cowlitz/Wahkiakum/Columbia OR County resident/homeowner?) please 1) Transportation: who'll pay to raise roads, eliminate cross traffic and until then already often snarled bridge traffic will often be at a standstill. 2) Pollution of air, water and soil and 3) Consider how Longview/Kelso area will fare when it becomes a dirty coal town. The losses will exceed the overall profit. Even China is*

(additional space is provided on the back)

apparently having an ecological epiphany and curtailing coal usage dramatically. The market price has continuously dropped from 2008 to less than half of what it was then. At that rate, in another 5 years half would be halved. I'm sure that same land, when made to be shovel-ready, put on the International Market with environmentally sound and responsible business giving way to in excess of one thousand jobs, not just 130 or so. We can provide a win-win solution if we don't acquiesce to Big Business Interest over the people's health, safety and gen'l welfare economically. Coal export = terminal stranglehold on Langrue's economy. It's crystal clear w/o a crystal ball.

So please leave no Alcoa smelter's contaminated Col. River stone unturned in your realistic threefold impact study.

Transportation, Pollution, Economic devastation of a Great Northwest American area, these are in the balance. I/we implore you to conscientiously report, for our lives are at stake here.

Energy irresponsibility, like 44 million tons of coal burnt in the wind to return here is unacceptable! Global warming is real!!! Ask any Polar Bear... if you can still find one... John Doyle (360) 703-4949
