I do not feel the Coal Train should go through our community for several reasons - Environment - Health issues - our pets, the noise & transportation especially going over the bridge to Rainier & from Rainier. The dust from this would give us health problems. If not today to our children and grandchildren in years to come the value of our homes would go down, even with economy the way it is. Don't feel it will give that much employment. The fish and wildlife should also be considered. They need more protection now please. Don't let this happen to us. Thank you
