PLEASE SHARE YOUR COMMENTS BELOW:

Coal is a loose, loose proposition. Our town would face the stigma of being a coal town. Other industries would look elsewhere, not here. Air Quality and the health of our citizens and children are to be sacrificed for a few jobs. Railroads would cause traffic jams holding up traffic for long periods of time. Environmental issues of air quality from coal being burned in China returning in the air currents to doubly pollute. Coal is a big negative - No thanks!
