 EIS Regulatory Process  
 Other EIS Process Topic

## PLEASE SHARE YOUR COMMENTS BELOW:

Energy extraction companies always greatly exaggerate the amount of revenue they will bring in, and always underestimate the negative impacts on our health, the economy and our environment that they will cause. This coal export proposal is no exception. They have no plan to deal with added traffic congestion and are not doing anything to lessen the impact from coal dust to EVERYONE all along the Railroad from Montana to Longview. I keep hearing what a "stand up" company Millennium is from those who advocate for this project, but do they remember that Millennium originally applied to build a much smaller Terminal? No!!! of course not.
