I moved to Longview, a beautiful community, almost 30 years to get away from the traffic and pollution of Portland. I worry about all of the above concerns but feel strongly about the health issues of to all of us. Longview already has a high percentage of people with asthma and COPD. The quality of air can't possibly be enriched by coal movement. Millennium can not contain coal dust! water run off will contaminate the earth and rivers. where will the water go after hosing down the coal?
