## PLEASE SHARE YOUR COMMENTS BELOW:

1. I am concerned about impacts on Ridgefield National Wildlife Refuge of so much traffic & loose flying coal.

2. I am concerned about export coal hampering efforts to use more rail for internal US/state freight & passenger travel because the rails are crowded & Amtrak has insufficient trips each day for the need.

(additional space is provided on the back)

(comment continued)

3. I am concerned that US future coal needs will be not meet with coal being exported. Coal can be useful even when we stop burning it as ~~exporting~~ a raw material for making things.

4. Exporting coal will drive up US prices with US

5. ~~the~~ Communities across the country will be damage where the mining occurs
