 EIS Regulatory Process
 Other EIS Process Topic

PLEASE SHARE YOUR COMMENTS BELOW:

I am deeply concerned about this project. I fear the consequences of building further infrastructure that pollutes our environment. The climate is in a critical state & if we don't move quickly toward building a sustainable future many people will die. Also, animal & plant life will continue to go extinct. As a wilderness guide I am deeply connected to the land & water which is not worth putting at further risk. We will not let this project go forward. We will protect our natural heritage.
