PLEASE SHARE YOUR COMMENTS BELOW:

I am a Cowlitz County Citizen & I fully reject the construction of a coal storage facility in Longview, WA. I live in the area of the proposed facility & see daily the strong winds that blow across that site towards our community. I am very worried about the effects of coal dust on our air - our Columbia River & our land. I am also worried about the dust retardant they plan on spraying. What will massive volumes of this chemical do to our environment? We are supposed to be moving away from coal

(additional space is provided on the back)

(comment continued)

so why would we turn a blind eye to where this coal is going? It will still pollute our atmosphere. We need to support President Obama in trying to help Climate Control - not the opposite.

also - Mitigation of 130 jobs on prime waterfront property does not justify gigantic mountainous rows of coal planking our great Columbia River, leaching into our soil, water & air!

Please help save Cowley Co. citizens from more pollution for 130 jobs -

Do Not Cave to a small union force that want to work the docks. They do not have my voice for this county!

We Certainly Can Do Better for our people land & wildlife!
