

## PUBLIC SCOPING MEETING COMMENT FORM

Please submit your comments on the Millennium Bulk Terminals - Longview Environmental Impact Statement by November 18, 2013 in order to ensure your comment is included in the scoping summary report.

Comments can also be submitted online at <http://www.millenniumbulkelswa.gov>.

### To whom would you like to address your comments?

All Agencies  
(NEPA and SEPA)

US Army Corps of Engineers  
(NEPA)

Cowlitz County and the Washington  
State Department of Ecology (SEPA)

### Does your comment relate to one of the following areas?

#### Human Environment

- Noise
- Air Quality
- Human Health
- Transportation
- Other Human Environment Topic

#### Natural Environment

- Plants and Animals
- Marine Species, Fish, or Fisheries
- Wetlands or Streams
- Water Quality
- Other Natural Environment Topic

#### EIS Process

- Alternatives
- EIS Regulatory Process
- Other EIS Process Topic

## PLEASE SHARE YOUR COMMENTS BELOW:

The scope of the EIS should be as broad as possible. The environmental impacts of this proposal are exceedingly broad, in fact, to the entire earth.

I was born and raised in Longview, WA. My parents moved here in 1931 to build a life and rear the 5 of us children. I returned here to live and build my practice and my life because I love my community and this area. Millennium has proven to be lies. Arch Energy rapes the land and coals.

(additional space is provided on the back)

Global warming worsens daily and coal mining, shipping and use only exacerbate the problem!

My 2nd home is on Willapa Bay. Already it is so acidic that oyster spat cannot survive and must be brought in to grow to support the oyster farmers.

Alcoa already has the legal duty to clean up their toxic waste. There will be better more positive opportunities for this wonderful river front ~~part~~ after they complete their legal duty to clean up their garbage.

Protect my community - require the very broad review required for the Freeingham proposal here, too. When I was young we considered Tacoma "the armpit of the earth" because of its toxic waste & slag heaps. Look how it has been cleaned up!

I've looked at Mittner's Canadian west coast Export Facility. It's a nightmare. Do NOT allow them to do that to my beloved home and country - I grow here! I eat the fruits & veggies from earth just a few short miles from the train tracks (under 3). BROAD SCOPE!
