I was plant manager of Longview Aluminum from 2001 to 2005 and I worked with EDC of Cowlitz Co. We were unable to find someone willing to take over site. On the eleventh hour Barry Oliver of Chinook Ventures took over creating many more environmental problems that ever existed. Millennium has cleaned up his mess. We no longer are a producing country to achieve any balance of trade we need to ship our natural resources. As I looked around the parking lot - the majority of the cars are foreign so until we change as country, we will lose manufacturing.
