no coal export

Dear U.S. Army Corps of Engineers, WA Department of Ecology, and Cowlitz County,

I strongly oppose the construction of a coal export terminal at Longview, WA which would transport coal on trains and ships throughout the Northwest. This proposal would negatively affect my community by increasing congestion and noise with more coal train traffic, polluting our air and local waterways, harming existing businesses, and delaying emergency responders. It would also damage aquatic ecosystems and fishing areas on the Columbia River, increase tanker traffic and the potential for shipping accidents and spills, expand strip-mining in Wyoming and Montana, and escalate climate change. I urge you to consider these impacts in the scope of the Environmental Impact Statement.

Thank you 

Signing this postcard makes you a participant in the Power Past Coal community. As a participant, you will stay informed and involved in the latest coal export news, information and action alerts.

I'm concerned that the human species is headed for extinction (or an extremely tenuous & brutal existence) in highly diminished numbers.

Please study the impact of More coal being burned on the global carbon foot print.
This proposal is absurd, to me it sounds criminally insane. I care about my grandchildren
