no coal export

Dear U.S. Army Corps of Engineers, WA Department of Ecology, and Cowlitz County,

I strongly oppose the construction of a coal export terminal at Longview, WA which would transport coal on trains and ships throughout the Northwest. This proposal would negatively affect my community by increasing congestion and noise with more coal train traffic, polluting our air and local waterways, harming existing businesses, and delaying emergency responders. It would also damage aquatic ecosystems and fishing areas on the Columbia River, increase tanker traffic and the potential for shipping accidents and spills, expand strip-mining in Wyoming and Montana, and escalate climate change. I urge you to consider these impacts in the scope of the Environmental Impact Statement.

Thank you Dave Struthers

I'm concerned that Pollution from Coal
transport, and burning in China
will come to reside in Pacific
North West Water-Air Land

Please study the impact of Coal pollutants/heavy
metals from burning migration
from China across the Pacific
and to migrating Salmon, Whales
and local tuna schools

POWER PAST COAL
communities against coal export
