Coal trains passing through Spokane will add to transportation congestion & possible emergency situations as fire & ambulances are held up. Air quality will be much worse especially in winter & we already have poor air. Noise & coal dust will increase as the trains increase in size & number. We need clean water & healthy plants to survive long term. Fish, fisheries, wetlands & streams are critical for us to continue our existence — don't destroy

our environment — most of us don't have the option to pack up & go somewhere else. Maybe there won't be a somewhere else if we don't stop this time.
