# no coal export

Dear U.S. Army Corps of Engineers, WA Department of Ecology, and Cowlitz County,

I strongly oppose the construction of a coal export terminal at Longview, WA which would transport coal on trains and ships throughout the Northwest. This proposal would negatively affect my community by increasing congestion and noise with more coal train traffic, polluting our air and local waterways, harming existing businesses, and delaying emergency responders. It would also damage aquatic ecosystems and fishing areas on the Columbia River, increase tanker traffic and the potential for shipping accidents and spills, expand strip-mining in Wyoming and Montana, and escalate climate change. I urge you to consider these impacts in the scope of the Environmental Impact Statement.

Thank you

I'm concerned that These terminals, in the cumulative, will have exponential adverse impacts that are not recognized when considered individually.

Please study the <sup>cumulative</sup> impact of the Millenium Terminal in combination with the Gateway Pacific Terminal, Port of Morrow Terminal, and Port of Vancouver crude oil terminal, especially as related to direct impacts from increased rail traffic on communities and the environment.
