EIS Process

- Alternatives
- EIS Regulatory Process
- Other EIS Process Topic

PLEASE SHARE YOUR COMMENTS BELOW:

I do not support this proposed project for the transport and storage of 44 million metric tons of coal per year. It poses an unacceptable health risk to the Columbia River Basin and the inhabitants that live here. Coal dust & the hazard it poses to the environment is harmful and should not be shipped to Longview, stored there and then shipped out. (additional space is provided on the back)
