 Other EIS Process Topic

PLEASE SHARE YOUR COMMENTS BELOW:

Impact of rainfall (60+ inches) to well water drinking for town of Longview & also direct run-off into Columbia River from the pile.

Deisel fuel pollution from upwards of 48-64 engines required to haul trains - along with increased pollution from vehicles that remain idle at intersections while waiting for train crossings to clear. - Increase of Deisel pollution in river & possible direct spills from barges into our Columbia river.

Increase of noise pollution from the trains horn & operation along these tracks - effects of the increased vibrations from the running of the trains thru towns & affect on land stability & damage of →

rail lines themselves.

Is BNSF or Millenium being required to petition the Columbia Gorge scenic Act as any other resident is required to do when affecting the Gorge scenery.

Who will be responsible to clean up when there is an accident- are there any bonds being put forth now to be ready & able to handle the clean up of such an instance.

And just a final small note of interest that the proponents have been continuing to say that this is a stand up community orientated company who will look out for the individuals in our community - However I know first hand that this company (millenium) left a tip on an over \$3200 catering order for their "company picnic" at the Cowlitz expo center. This to me states the actual valued moral integrity of such a company.

Thank you for your time!
