Myself and my Husband will probably die before the health problem become well known from this coal contamination. Dust, Mercury, air pollution. The possible illnesses relating to these tons and tons of coal dust will affect our children now as adults. Not to mention the poisons coming ~~over~~ across the ocean from the burning coal in massive quantities, you should be ~~be~~ sure the things we do today

(additional space is provided on the back)

(comment continued)

will affect many, many people  
that you care about & love.

We should be ~~reason~~ responsible  
for our actions when so much is  
at risk.
