# no coal export

Dear U.S. Army Corps of Engineers, WA Department of Ecology, and Cowlitz County,

I strongly oppose the construction of a coal export terminal at Longview, WA which would transport coal on trains and ships throughout the Northwest. This proposal would negatively affect my community by increasing congestion and noise with more coal train traffic, polluting our air and local waterways, harming existing businesses, and delaying emergency responders. It would also damage aquatic ecosystems and fishing areas on the Columbia River, increase tanker traffic and the potential for shipping accidents and spills, expand strip-mining in Wyoming and Montana, and escalate climate change. I urge you to consider these impacts in the scope of the Environmental Impact Statement.

Thank you

I'm concerned that my asthma will worsen, & that I won't be able to enjoy my current activities. Chinese pollution resulting from their use of exported coal is carried across Pacific right across the N.W. Double pollution - going & coming

Please study the impact of air pollution from transport of coal and pollution from Asian users of this coal on health & safety of individuals & the rest of the environment.
