no coal export

Dear U.S. Army Corps of Engineers, WA Department of Ecology, and Cowlitz County,

I strongly oppose the construction of a coal export terminal at Longview, WA which would transport coal on trains and ships throughout the Northwest. This proposal would negatively affect my community by increasing congestion and noise with more coal train traffic, polluting our air and local waterways, harming existing businesses, and delaying emergency responders. It would also damage aquatic ecosystems and fishing areas on the Columbia River, increase tanker traffic and the potential for shipping accidents and spills, expand strip-mining in Wyoming and Montana, and escalate climate change. I urge you to consider these impacts in the scope of the Environmental Impact Statement.

Thank you

Jane S. Morgan

I'm concerned that burning coal by anyone causes more global warming and the U.S. exporting to China is an environmental crime to all

Please study the impact of coal trains in the Gorge, thru cities, the coal pile in Longview, burning coal on the people of China & the one-side Ads put on TV by Millenium - to fool the people who see them.

POWER PAST COAL
communities against coal export
