I would like the committees to be aware that in 1888 J P Morgan and others made a decision to stop all other energy forms and concentrate on fossil fuels. For over 130 the banker families have controlled the world with keeping us addicted to fossil fuels. This small group have bought up clean and free energy devices and even murdered inventors! The coverup of UFOs is created by these fossil fuel tyrants also! - they do not want the public to ask the questions - How do they get here ... I do not think their fuels are coal, oil or gas!! Please say NO to these fossil fuel tyrants.
