- Plants and Animals
- Marine Species, Fish, or Fisheries
- Wetlands or Streams
- Water Quality
- Other Natural Environment Topic

#### EIS Process

- Alternatives
- EIS Regulatory Process
- Other EIS Process Topic

## PLEASE SHARE YOUR COMMENTS BELOW:

Coal + the coal trains add insult to injury -  
- not only DO we (western states/B.C.) have to be concerned about the health + environmental effects in our own backyards we have to worry about the continuous effects of china burning coal + ruining our air/atmosphere!! my friend works in Guanzhan, china - They never see the skies - her lungs are happy when she visits the PNW (here now for visit!) we see how well the folks are doing in Appalachia w/ their health/environment/jobs - Coal is not the answer. So what if china gets coal from elsewhere. At least we would have blood on our hands. Money / Greed \$/ are not answers!

(additional space is provided on the back)
