- Plants and Animals
- Marine Species, Fish, or Fisheries
- Wetlands or Streams
- Water Quality
- Other Natural Environment Topic
- Alternatives
- EIS Regulatory Process
- Other EIS Process Topic

### PLEASE SHARE YOUR COMMENTS BELOW:

Please consider the global consequences of ~~the~~ building this terminal (and remember that "global" includes Washington). Exporting more coal will have significant negative consequences on the environment + human health. It will exacerbate/accelerate global warming and ocean acidification. It will have significant negative impacts on local air quality and the natural environment.

(additional space is provided on the back)
