I am an asthmatic. The coal dust that comes off the trains causes immediate harm to our air quality. This directly affects me and hundreds of thousands of asthmatics in the state of Washington & Oregon. Plus the burning of this VERY DIRTY coal in China will further pollute our air along the whole west coast. Again affecting me directly. The potential problem of the coal dust in our water ways affects every living person & animal. Let's put the health of the people of this state & country before the profits of a few coal companies.

I am tired of profit for a few & a huge disadvantage to the many that aren't part of the 1%.

No to Coal

Trains
