Dear U.S. Army Corps of Engineers, WA Department of Ecology, and Cowlitz County Commission,

I strongly oppose the construction of a coal export terminal at Longview, WA which would transport coal on trains and ships throughout the Northwest.

Coal export terminals adversely affect Washington State by increasing congestion and noise with more coal train traffic, polluting our air and local waterways, harming existing businesses, and delaying emergency responders.

It would also damage aquatic ecosystems and fishing areas on the Columbia River, harm human health, increase tanker traffic and the potential for shipping accidents and spills, expand strip-mining in Wyoming and Montana, and escalate adverse climate change.

It makes no sense to allow the construction of coal export terminals at a time when the world needs to take bold steps to dramatically reduce our carbon dioxide emissions!

I strongly urge you to consider these impacts in the scope of the Environmental Impact Statement.

Thank you,

James Williams
